FOUR WHEEL TRACKS AND GRADIENTS

Replicates typical Australian 4WD country:

- forest and bush trails and tracks.
- follows natural topography, gullies, ridge lines etc.
- some sections suitable for all weather conditions.

Some link up with 4WD Introduction Area and 4WD Gradient Section.

Vehicle familiarisation, testing and comparisons, retardation systems, hill descent, hill hold systems, traction control systems.

Suitable for some crossover vehicles, 4WD passenger vehicles, fire tankers, military vehicles, heavy trucks.
